Watchit! 3D is a universal smart watch mount used for operating and charging a smart watch in a vehicle.

- Mounts to automobile air vent with Vinzant AV-1 mounting adapter
- Compatible with the following Arkon vehicle mounts:  
GN042, GN033-G, GN083, GN097, GN097-USB [www.Arkon.com](http://www.Arkon.com)

**Setup:**

Install dual coil spring into the spring seats:

**Using Watchit! 3D:**

Note: Mounting Seat. For stronger springs it may be necessary to use the center tab and insert the smart watch one band at a time.

- STEP 1: Remove smartwatch from wrist.
- STEP 2: Using the index finger and thumb, pinch the buttons together. The band clamps will separate from the shoulders up to 3/8".
- STEP 3: Insert the watch bands into the gaps between the shoulders and the band clamps. The watch band does not need to be connected.
- STEP 4: Release the buttons. The smartwatch is now firmly clamped to the mount.
- STEP 5: Attach charging connector to either side or to the back of the smartwatch. Use Vinzant charging connector adapters (purchased separately) to enhance the experience.

**Connection to Arkon compatible mounts:**

- STEP 1: Remove wing nut leaving screw in place.
- STEP 2: Remove fitting.

- STEP 3: Attach Watchit! 3D mounting seat to screw and loosely replace wing nut.
- STEP 4: Rotate to desired position and tighten wing nut.

**Charging Connector Adapters:**

AC-1 Apple Watch Charging Connector Adapter

Apple magnetic inductive charging connector snaps into the adapter and is presented the back of the smart watch.

PC-1 Pebble Time Charging Connector Adapter

Pebble magnetic charging connector snaps into the adapter.
